HOLISTIC HEALTH AND HEALING!

While Dr. Andreano is a chiropractor, chiropractic work is just a small portion of what he does. He specializes in holistic health and healing, and many patients consider him their primary care physician. “Dr. A” helps to promote healing without the use

of medicines, for long lasting and permanent results. He treats neck and back pain and other musculoskeletal issues, but does not stop there, commonly treating conditions such as migraines, irritable bowel syndrome, diabetes, fertility and hormone issues, skin issues, and energy and weight issues, among others.

Dr. A treats the body as a whole; his goal is to let the body heal itself by feeding and nourishing it properly. Realizing that every part of the body is connected, he looks at the body in its entirety to diagnose hidden problems ... some problems you may never have known you had. Correcting them can fix other issues. A pain in your back often is caused by a GI problem, for example.

Dr. Andreano gets to the root of the problem, and doesn't just treat the symptom. A common practice is to give the body medication to treat a symptom, which can lead to a lifetime of medications and treatments, causing additional health problems in both the short and long run. Dr. A's goal for his patients is to have a long-term solution, and not just keep coming to him to have the same problem corrected over and over. Dr. Andreano will be your last stop on your path to wellness!

Dr. A likes to make health and healing fun! He has a positive energy in his office with a relaxed atmosphere, and sometimes spends over an hour with a patient on a given day. He truly cares for his patients and wants their health to improve ... this positive energy comes across and helps them to heal.

A WORD FROM DR. A:

Helping people heal really brings me joy. Seeing patients go from reserved and in pain... to energetic and carefree, with their full personality shining through, really brightens my day and assures me that I am making a big difference. I like to develop a rapport with my patients that makes them feel comfortable and also makes my job fun. I can honestly say that I love going to work every day!

Dr. Andreano has been in Barrington for 10 years and practicing for 15 years. He has worked with many families for years and has watched their kids grow up. He and his wife have two sons ages 13 and 8. Dr. A loves to play golf, to cook and to help others. He gives back to the community by getting involved with special needs kids, and his business supports the Ela Township Food Pantry on a regular basis.

Dr. Andreano is a compassionate and caring healer. Make an appointment to see him today!
